

APPLICATIONS:

The following requirements apply only to situations requiring the use of fire watch practices on the jobsite.

INTRODUCTION:

Responsibilities you assume when you become an official fire or safety watch are very important. Familiarize yourself with all of the duties. Fire watches primary responsibilities are:

- Prevent ignition of any flammable material
- Should a fire occur, immediately extinguish it or raise alarm
- Call 911 in an Emergency situation
- Maintain the conditions and requirements listed on the “Hot Work” Permit
- Stop the job if you observe any condition that you consider to be hazardous

FIRE WATCH REQUIREMENTS:
